The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagram illustrates the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Thomas Fisher Rare Book Library,
University of Toronto Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

EXAMINATIONS

TO BE HELD ON

THURSDAY, APRIL 7TH, 1892.

Every candidate for examination must send in his name to the Registrar at least one month before the date fixed for the examinations.

Preliminary Examination.

Candidates, except such as have matriculated in arts in any university in Her Majesty's dominions, or in the Ontario School of Practical Science, must have passed the examination of the second form of a High School or Collegiate Institute; or, as an alternative, must have passed the entrance examination to a High School or Collegiate Institute and submit to an examination in Mathematics and either French or German equivalent to that of the second form of a High School or Collegiate Institute.

The first time of sending in his name as a candidate for examination the student shall send also a certificate of his status with reference to the Preliminary Examination.

First Intermediate Examination.

Every candidate must, at least one month prior to the date fixed for the examination, send to the Registrar the following drawings, which must be certified by his principal to be his own work :—

Four sheets of drawings, one of each of the following orders :—
Grecian Doric, Grecian Ionic, Grecian Corinthian and the Composite Order of the Romans.

One sheet of the mouldings and ornaments of these orders, drawn to a larger scale.

(Each sheet to be of the size of a half sheet of Whatman's Double Elephant paper, 4. c., 20 in. by 26 in.)

The subjects for examination will be :—

Elements of Construction.

Text Book : Mitchell's Building Construction.

Mathematics.

Euclid : Books I., II. and III.

Plane Trigonometry : Including the solution of plane triangles.

Algebra : Including quadratic equations.

Technical Terms.

A knowledge of the terms necessary to understand the description of a monumental building and its parts.

History of Architecture.

An outline only will be required, such as may be learned from reading such works as Rosengarten's Architectural Styles.

Second Intermediate Examination.

Every candidate must, at least one month prior to the date fixed for the examination, send to the Registrar the following drawings, which must be certified by his principal to be his own work :—

One sheet of Romanesque architecture.

Two sheets of Gothic architecture.

One sheet of drawings measured from existing examples.

One sheet of constructional details.

(Each sheet to be of the size of a half sheet of Whatman's Double Elephant paper,
i. e., 20 in. by 26 in.)

The subjects for examination will be :

Statics, Graphical and Analytical.

Strength of Materials.

Text book for both the above heads : Lessons in Applied Mechanics,
by Cotterill & Wade ; Part II.

Structural Iron Work.

The candidate will be required to draw details of the forms of iron construction in use in ordinary practice, viz., the construction of columns and girders, and the framing of beams and trusses.

History of Architecture.

The candidate will be expected to have a knowledge of the development of architecture and the characteristics of the different styles.

Text book : Fergusson's History of Architecture.

Handbooks recommended :

Parker's Introduction to Gothic Architecture.

Bloxam's Gothic Architecture.

Rickman's Gothic Architecture.

Final Examination.

Every candidate must, at least one month prior to the date fixed for the examination, send to the Registrar a perspective drawing which must be certified to be his own work. Drawing to be on a sheet of paper, 20 in. by 26 in., and not mounted on cardboard.

The subjects for final examination will be :—

History of Architecture.

The leading characteristics, including mouldings, features and ornaments of all styles ; and special characteristics, with mouldings, features and ornaments in detail, of any one style or period the candidate may select.

Design.

As illustrated by drawings for a building of moderate dimensions, from particulars given, with details of construction and ornament and with specifications.

Nature and Properties of Materials.

Limes, cements, stones, bricks, timber.

Foundations.

Text-book : Foundations, by Geo. T. Powell.

Architectural Jurisprudence.

Text-book : The Law Relating to Civil Engineers, Architects and Contractors, by Macassey & Strahan.

Practical Knowledge of Building Trades.

Sufficient for the purposes of ordinary building.

Strength of Materials.

Designing structures of an ordinary kind from data, with computation of the strains involved.

Heating and Ventilation.

Text-book : Ventilation and Heating, by John S. Billings.

Sanitary Science.

Text-book : Gerhard's House Drainage ; Bayles' House Drainage and Water Supply.

Second Intermediate Examination

FOR 1892.

As many students who were in service at the time of the passing of the Act are allowed to begin their course of examinations (after the Preliminary) at the Second Intermediate Examination, this examination will for this year comprise parts of the First Intermediate and of the Second Intermediate Examinations, as follows :—

The drawings to be submitted, and the examinations on Structural Iron Work and the History of Architecture will be as in the programme for the Second Intermediate Examination. Graphical and Analytical Statics and Strength of Materials will be omitted, and in their place will be taken the Elements of Construction and Mathematics of the First Intermediate Examination.
